

## Basic Python Bootcamp

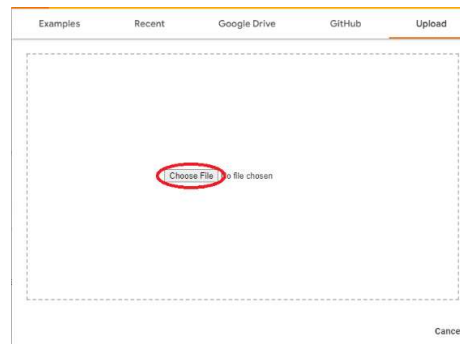

For this Bootcamp we will be using google colab, you can open it using the following link:  
<https://colab.research.google.com/>.

Once in colab page you will need to log in with your google account.

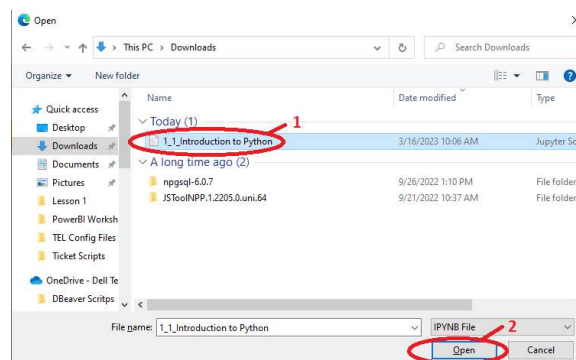

After login in, go to file (1) and then go to upload notebook (2)

A window will open, click on the button Choose File

in the next window search where you downloaded the notebook to be used, in this example we will use 1\_1\_Introduction to Python (1), once selected click open (2)

Then your notebook will be ready to use.
